

FAIRCLOTH CONSTRUCTION LTD

STATEMENT OF COMPETENCY

The Faircloth Group offers a comprehensive range of building services.

At Faircloth we believe that our reputation as an ethical, trustworthy provider of construction services within Commercial, Retail and Industrial sectors is essential to our core purpose of helping our clients to build their financial security. We seek to establish and maintain long term relationships with our clients and intermediaries. We believe this to be a fundamental pre-requisite for growth of our business.

HEALTH AND SAFETY

Over the years Faircloth has sustained a powerful reputation for industry excellence allowing us to maintain good links with clients. Faircloth continues to hold a strong tradition of safe building and Health and Safety is key design and educational tool to which all staff, both office and site, adhere to.

Site staff are to be given training for those defined as users or operators, and will cover the health and safety aspects associated with the equipment, including recognition of risks, and their causes, adjustment of seating and equipment positions, cleaning and maintenance, use of breaks, consultation arrangements and eye test arrangements.

Competent health and safety advice is sought from consultants who are available on a reactive basis. All members of the practice have direct access to this advice by telephone, email or meetings if considered necessary. The persons providing this advice are generally project CDM Coordinators. However, specialist business workplace advice can be obtained. In some circumstances, particular reference to Management of Health & Safety at Work Regulations 1999 and Workplace Health Safety and Welfare Regulations 1992, will be required.

Audits, monitoring and review of our Health and Safety procedures are carried out on a frequent basis by practice managers/senior partners.

FAIRCLOTH'S COMMITMENT TO CLIENTS

The Faircloth Group are serious about facilitating superior working relationships. We engage in open and reciprocal dialogue with our clients in order to ensure a relevant and responsible design and construction service. Our problem-solving initiatives and transparent communication strategies allow us to deliver to the client a responsibly built and economical solution. As small-sized organisation we are able to ensure that our key representative will stay with a project until completion; which means that the staff, who starts the job, finishes the job.
